

IMMERSION SUITS

IMMERSION SUITS

IMO NEWS ALERT

The 76th session of the Maritime Safety Committee has adopted amendments to change the number of immersion suits to be carried on cargo vessels, including bulk carriers. The amendment introduces new requirements for one immersion suit per person on board. Scheduled to enter into force July 2006.

Instruction and donning video available upon request.

I590 Cold Water Immersion Suit

When lives are at stake, more maritime professionals worldwide rely on the Stearns® I590 Cold Water Immersion Suit than any other immersion suit brand. Made with 5mm stretchable flame retardant neoprene, the Stearns® I590 provides quality anti-hypothermia protection.

- All sizes provide a generous fit for easy donning
- Each suit comes in its own color coded storage bag

USCG Approved and complies with SOLAS 74/96 and European MED. Also available in model I590-MED, without inflatable head support, which is European MED approved and complies with SOLAS 74/96.
