

NEW BREATHABLE DRYWEAR

BREATHABLE DRYWEAR®

STEARNS® TRACTEL SPORT

Rugged 100% Nylon cloth with Series 2 waterproof and breathable performance. The tight outer weave construction of our Tractel Sport cloth sheds water and wind, yet is highly breathable to keep you dry and comfortable in more extreme weather conditions. Fully taped and strategically designed seams provide a dry, comfortable environment. The Shell Parka and Bib are reinforced with Polyester 600D pack cloth in the extra stress and extra wear areas, where leakage is not an option.
