

SOLAR POWERED AIDS TO NAV.

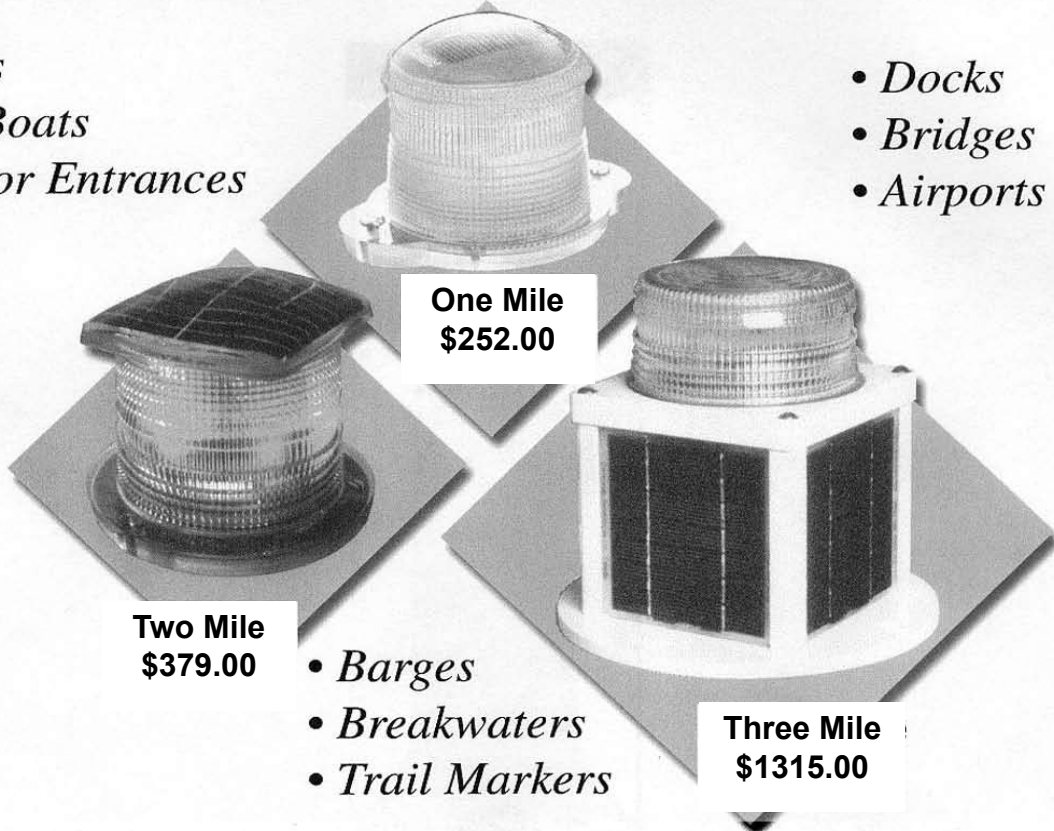

Carmanah Lights

CARMANAH LIGHTS

The ultimate in durability and maintenance free performance

- *Buoys*
- *Tow Boats*
- *Harbor Entrances*

- *Docks*
- *Bridges*
- *Airports*

- *Barges*
- *Breakwaters*
- *Trail Markers*

Totally Self-Contained / Sealed Construction

Domed Top

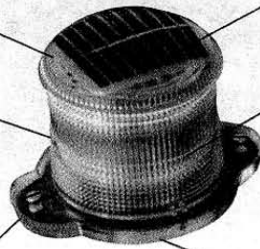

- Birds stay off
- Collects sun from all angles

Polycarbonate Sealed Shell / Encasement

- Very strong
- High impact resistant
- UV stabilized
- Clear lens
- Water tight

Mounting Holes / Base

- 1/4" max. fastener size
- Use tamper-proof or regular hardware
- 7/16"-9/16" thick base for strength

Solar Panel

- Encased in shell
- High efficiency

State-of-the-Art Components

- Colored, high-intensity LEDs (no bulbs)
- Efficient solid-state circuitry

Lead Acid Battery Technology

(Sealed & encased inside)

- Longer life - up to 8 years
- High power density
- Stable voltage
- Widest operating range (-40° to 110°F)
- High pressure safety vent
- Up to 3 weeks backup storage

Which Light Best Fits Your Needs?
