

# SCEPTALIGHT NONMETALLIC LIGHT FIXTURES

## CEILING MOUNT

Box with four 3/4" threaded hubs and integral mounting feet.

Sceptalight offers a variety of globe options to suit a wide range of applications and environments. Our standard clear glass globes are ideal for general purpose area lighting for either indoor or outdoor use. Polycarbonate globes offer impact resistance in case of accidental contact and the assurance that work areas are not contaminated by broken glass.

Colored globes – available in red, blue, green or amber – can transform the light to an indicator or warning light.

## LIGHT OPTIONS

Sceptalight offers the choice of energy-efficient compact fluorescents or cost-effective incandescents.

### FLUORESCENTS

Our compact fluorescent fixtures work four to five times more efficiently per watt than incandescents and provide 10-20 times the lamp life, yet use approximately 75% less energy. In this way, Sceptalight fluorescents lower energy and maintenance costs without sacrificing light levels.

### INCANDESCENTS

With their low initial cost, Sceptalight incandescent fixtures make the most practical choice to meet the daily needs of commercial, industrial, marine and agricultural applications. Our incandescents are ideal for short burn times as well as flashing and dimming applications.

## WALL MOUNT

Box with four 3/4" threaded hubs, 90° wall bracket and integral mounting feet.

## PENDANT MOUNT

Pendant cap with 3/4" threaded hub and a locking set screw.
